VOLUME 8

CHAMPION, (Alberta) THURSDAY, JUNE 17, 1926

NUMBER 3

## SAVOY CAFE

Our Ice Cream Parlor and Soda Fountain are popular these days and deservedly so. You can make no mistake in bringing your thirst or your hunger to us.

Leo. M. Roberts.

## Dr. R. R. McIntyre

DENTIST  
714 Herald Block, — Calgary.  
Will be at Champion all day Tuesday each week.  
Appointments may be arranged at Moffatt's Hardware.

## J. FRED SCOTT LL.B.

Barrister, Solicitor, Notary Public, of 213 Lancaster Building Calgary, will be in Champion every Thursday afternoon, in old Municipal office.

Champion Lodge  
No. 84.  
A. F. & A. M.  
G. R. A.

Meets second Thurs-  
day in each month. Visiting brethren  
welcome.  
CHAS. McLEAN, E.F. CRAWFORD  
W.M.

## To the Electors of Little Bow Constituency:

Having been nominated in an open convention of electors to contest the constituency of Little Bow in the interests of the Liberal party, I appeal to the electors for their support for a sound, progressive and economical policy for the Province of Alberta and for immediate examination of our provincial taxation system and its adjustment on sound business principles with a view to the reduction of taxation on the agricultural and other interests in the province in general, and for an honest effort to make income balance expenditures each and every year.

JAS. McNAUGHTON.

All opinions expressed by government supporters and others advocate the voting of the entire ticket in the forthcoming provincial elections when the transferable ballot comes into use. In this electoral district, with only three names on the ballot there is really every reason why every ballot should be completed by voting first, second and third choices. There will be many less ballots spoiled by voting 1-2-3, as the elimination of the X will confuse some of those who would plump.

There were thirty-four ladies present at the W. L. meeting held at Mrs. Ulrichs, Tuesday June 8th. Mrs. Boner gave a splendid report on the annual convention, followed by a few words by Mrs. G. E. Smith and Mrs. Alcock who also attended the afternoon. Delicious refreshments were served by Mrs. Ulrich assisted by Mrs. F. Caldwell and Mrs. Mitchell. Miss May Ulrich played the piano very acceptably during the afternoon. The July meeting will be held at the home of Mrs. P. Patterson, Tuesday, July 13.

The Ladies' Aid met at the home of Mrs. L. Groves on Thursday with a large attendance as usual. On this occasion a presentation of a beautiful silver console set was presented to (Rev.) Mrs. Lee by Mrs. G. E. Smith for Mrs. Lee's splendid work in the Aid during her stay in Champion. Mrs. Lee responded in wishing the Aid every success in the future.

Baseball Tournament July 1.

CAPT. JOS. T. SHAW  
Leader of the Liberal Party in Alberta.

## Mr. E. Mason

## Farewelled

On Friday evening, June 11th, a gathering occurred in the old Canadian Bank of Commerce building, the occasion being a farewell to E. Mason, former manager, who was transferred to Drumheller recently. Some forty guests were present and a splendid evening was spent. Community singing led by G. M. Campbell was one of the attractive features and a quartette consisting of Messrs. Campbell, Moffatt, Hoskins and Henderson provided real music. Many tributes to Mr. Mason's worth were made, the speakers including A. J. Ruggles, manager of the Gues Ranch, H. E. Smith, Mayor Mark, Councillor Tyler, W. S. Ryan, J. M. Moffatt, Herbert and Horace Gill, Postmaster Orr and many others. To P. M. Patterson fell the honor of presenting Mr. Mason with a pipe, tobacco pouch and a box of cigars, and the speaker distinguished himself, his tactful resume of many services rendered the community by the retiring bank manager emphasizing the esteem in which both he and Mrs. Mason were held here.

In acknowledgement Mr. Mason referred feelingly to his regret in severing the ties, both business and social, which he had made in Champion, and assured those present that he was glad he still had a farm in this vicinity which would insure future visits on his part.

The proceedings were closed by singing Auld Lang Syne and God Save the King.

## Carماغay W.I.

## Entertains

Champion, Vulcan and Barons Women's Institutes were entertained by Carماغay W. I. last Friday, over eighty ladies being present. The programme included an interesting address by Mrs. F. C. Alcock, other items contributed by Champion visitors being a gypsy dance and the Highland fling by the Misses Peterson, solos by Mrs. McLean and G. M. Campbell. Mrs. A. S. Roberts, of Barons, also assisted in the programme.

## Baseball and Dance Friday Evening

Alston and Champion meet here on Friday evening at 5.30, and a good game is looked forward to. Later in the evening there will be a dance in McCullough's hall, for which Drummond's 4-piece orchestra will supply the music.

Mrs. U. G. Anderson is spending the week-end at Kirkealdy, visiting Mrs. Boose. They intend motoring to Reid Hill on Thursday, where the W. I. are entertaining the Champion W. I.

A quiet wedding was solemnized in Lethbridge on June 5, when Myrtle Haynes, of Taber, became the bride of William Skelton, of Elnora. Mr. and Mrs. Skelton were employed at the Jopling farm.

THURSDAY, JUNE 17, 1920

## NEWS NOTES

Attention is drawn to the government advertisement in this issue in regard to the method of voting to be used. The old X gives place to the figures 1, 2 and 3, and the change should not be difficult for anyone whose attention is drawn to the change before going to the polls on June 28th.

The cool weather with light showers which followed the recent rains made the conditions practically perfect for the resurrection of crop damaged by soil drifting and many who feared serious loss from this source now have hopes of a fair crop. A considerable amount of reseeded has taken place and this should solve the food problem.

Plans for the establishment of a large gasoline extraction plant at Wainwright oil fields are being made by a Los Angeles firm, who may eventually spend \$100,000 in the plant. Thorough tests of the Wainwright gas for extraction purposes are being made.

More than 15,000 visitors are expected at Camrose during the four-day celebration by the Norse Society of Canada, in the first week in July, when Noramen from all over the dominion and from parts of the United States will gather. A special provincial exhibit of agricultural products will be displayed during the celebration by the provincial department of agriculture.

Tourist traffic into Alberta mountain resorts has been very heavy for the month of May and the first part of June. The perfect condition of the Calgary-Banff Highway, which was completed as a permanent highway by the provincial government last year, has been responsible for practically doubling the early season traffic into Banff and Lake Louise. The total number of cars passing through the Kananaskis gate during May was 4,086, compared with 2,181 the same month last year. A new record for three days was established when, over the Victoria Day week, over 1,937 cars passed through the gate an increase of 712 cars over the previous three-day record.

The staff of the Dominion Forestry farm at Sutherland, Sask., has been busy shipping baby trees destined to become pleasant groves of shelter in nearly 3,000 places in the prairie provinces. The demand for this free service afforded by the Department of Agriculture fluctuates with the years, according to farming conditions and settlers' movements. Up to the fall of 1923 the Sutherland station had shipped, since its inception, over 17,000,000 trees. For 1924 the total was 2,000,500, while in 1925 it was about the same number. This

year 3,355,000 were shipped.

Shipments of Canadian grain to British and European ports during the winter season from Saint John totalled 17,388,000 bushels, an increase of more than 4,000,000 bushels over the season 1924-25.

A world record in seedling operations is reported by the Colonization Department of the Canadian National Railways from Spring Coulee, Alberta, where 360 horses, 41 cultivators and 20 seed drills were used simultaneously on a 300-acre farm. This intensive cultivation was the result of a seedling bee organized by farmers in the district to assist a neighbor, Mrs. H. Joiner, whose husband died recently.

A total of 80,000 acres in oil leases have been filed on during the last week in the vicinity of Foremost, south east of Lethbridge, where large gas deposits have been located. Drilling for oil will be undertaken by the syndicate filing on the leases.

A party of editors of daily and weekly newspapers from

Michigan and Minnesota, were visitors to the province during the past week. They were members of the Inland Press Association and Graphic Arts Guild, and spent a day in Edmonton and Jasper Park.

Welcome rains have fallen during the week and the outlook has brightened in consequence. Even a big crop is looked forward to by many although it would appear that many fields were far advanced in the shot blade before the rain to the basis of any heavy yield. At any rate the long drought is broken and prospects are sufficiently good to make everybody cheerful.

A yearling bull calf, red and white, branded W. V. Leason, Phone 1500, Champion.

A Want Ad. Will Do It!

## Voters Attention!

Directions as to the use of Preferential Ballot

The preferential ballot will come into general use for the first time in the forthcoming provincial elections. Every voter should be thoroughly conversant with the method of marking the ballot before attempting to vote. Read these instructions:

The voter must not use the X mark.

The voter must place the figure 1 opposite the name of the candidate who is his first choice, the figure 2 opposite his second choice, the figure 3 opposite his third choice and so on until he has voted for all the candidates on the ballot if he so wishes.

The voter may plump for one candidate alone, using the figure 1, without spoiling his ballot, but is urged to vote to the full extent of his choices, as it is only by doing this that the voter obtains the full benefit of this form of ballot.

The voter must not place more than one choice opposite any one candidate.

The voter must not make the same choice for more than one candidate.

The voter must not make any mark on the ballot not authorized by these directions.

Read these Instructions Carefully

JOHN D. HUNT,

Clerk of the Executive Council.  
Government of Alberta.

**VERMIN ON FOWLS**

(Experimental Farms Note).

At this period of the year, vermin unless controlled, multiply very rapidly.

The fowls at the Central Experimental Farm, Ottawa, are treated periodically for lice. Blue ointment, to which two parts of lard have been added, is used to kill the lice and nits. The addition of little tallow will give more base. This ointment is applied to the skin below the vent and under the wings. Fowls treated in this cheap and effective manner will remain free from lice for several months unless exposed to farther infestation. Blue ointment should not be used on setting hens until after the hatch. The fumes from the ointment will kill the germ in the egg.

Unsanitary poultry houses encourage the most troublesome of vermin, the red mite. These mites get their fill of blood at night and leave the fowl before dawn, to hide in cracks and crevices. The blood ridens the mite, hence the name, red mite. The houses at the farm are thoroughly cleaned, and sprayed each spring, summer and fall with a spray composed of one part of carbolic and four parts of coal oil. The roosts are twice each month during warm weather, with common crank case oil. The above treatment is very penetrating and plays havoc with the mites.

The cleaning and spraying is done during a sunny forenoon, which allows time for the house to dry thoroughly before evening.

Fresh air and sunlight are wonderful disinfectants for the poultry house and combined with cleanliness are preventives against most of the poultry yard ills. (Exhibition circular, No. 88 "How to rid the hen house of mites" may be had free of charge from the Publications Branch, Department of Agriculture, Ottawa.)

A good spray pump should be part of every poultry keeper's equipment.

The King government was sustained by a majority of six on Wednesday on a want of confidence motion introduced by Fred Davis of Calgary. Two progressives voted against the government.

Owing to a wet afternoon the Champion baseball team did not play at Nanton on Wednesday.

Miss May Ulrich, of Calgary, spent two week at her home here.

## 13,120 Acre Cattle or Sheep Ranch

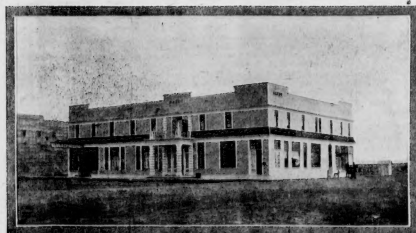

Best of grass, fenced and cross-fenced and well watered. This acreage can be split three ways to suit purchaser. 600 Acres can be irrigated. Price \$6 per acre, one-fifth cash, balance divided over 6 years at 6 p.c. interest.

This is beyond question one of the finest ranching propositions available in Alberta.

## 10,000 Acres

In the Municipality of Clifton in parcels of 160 acres up priced from \$2.75 to \$8.00 per acre, including some splendid buys. Detailed description of many of these parcels will be printed in an early issue.

A list of farms throughout the Champion district will be forwarded upon application, these including some of the finest properties in the district.

## THE ECONOMIC NEED OF CANADA IS MORE PEOPLE

Toronto—"Canada's economic need is for more people. We need more producers and more consumers. The policies which give us both are the policies which produce prosperity, and prosperity will give us national unity. We can have widespread prosperity only when there is the need for a national unity or national harmony. These were the closing words of High Hon. Sir Thomas White, former two-time minister of finance. In an address delivered at the closing session of the annual meeting of the Canadian Manufacturers' Association here.

Sir Thomas declared that the policies necessary for prosperity were the policies which would develop the resources of Canada. "Prosperity had for Canada a much greater significance than the mere making of money. We must, even if it involves some loss of us, provide for the diversified industries and occupations which will take up that part of our population which desires to engage in callings other than our primary industries. We should do everything in our power to promote agriculture, mining, lumbering, fisheries, but we should also do everything in our power to promote industrial enterprise," he said.

Sir James Aikins, lieutenant-governor of Manitoba, who presided Sir Thomas White, made a strong appeal to Canadian unity. "I have had the privilege of visiting the prairie provinces," he began, "and I have been struck by the fact that sympathy is shown by the rest of Canada. Any of our provinces are weak, I beg of you, gentlemen, to consider them in a spirit of fairness and assistance in order to make the whole body of Canada healthy and strong."

His honor, Col. Harry Cockburn, lieutenant-governor of Ontario, paid a tribute to the remarkable development of the Canadian west in the past quarter century. "Today we find a province on the west with a wealth in 1921 of \$60,000,000, and in 1924 of \$1,500,000,000, who produced in 1921 \$480,000, and whose estimated total wealth today is eight billions. These figures speak for themselves and should give us courage to face the future with a strong heart."

## Hauling Gravel On Hudson's Bay Line

Two Trains Distributing It Along Right Of Way

The Par, Man.—A steam shovel has started operation on the Hudson's Bay Railway.

It is located at a gravel pit about five miles south of the town. This pit was recently opened by the Canadian National Railway, which is taking steps to acquire the land adjoining, which contains a large quantity of gravel. Two trains are working out of this pit, distributing gravel along the right of way. It is expected that another shovel will be put in commission very shortly.

**Lloyd George To Visit Russia**  
London.—Former British premier Lloyd George is said to have decided to accept the invitation of the Soviet to visit Russia this summer to see what progress the country has made. Labor circles say that Lloyd George already is convinced that the Russian Government is not as bad as it is painted and will advocate closer relations with it.

**Strike Is Settled**  
Oslo, Norway.—The strike of 20,000 engineers and miners which began last April has been settled by the agreement of mediation by the state of the employers and workers. The employees insisted upon the 17 per cent reduction in wages based on the reduced cost of living.

**Sentenced to Hang**  
Winnipeg.—Sentence of death was passed on Daniel Proctor for the murder of Annie Cardon, an old-lady sweetheart, in Winnipeg, March 16 last. The execution was fixed for August 25. Proctor was unmoved when sentence was pronounced.

**Economic Commission**  
Berlin.—An economic commission to investigate Germany's capacity for production in all lines and her marketing facilities at home and abroad. The new body will begin its investigations immediately.

**Negotiations Completed**  
Liverpool.—It is understood that the negotiations for the sale of the White Star Line have been completed, excepting minor details, and all arrangements are being made to transfer the line to British interests early in July.

## Killed By Senate

Old Age Pension Bill Defeated In Upper Chamber  
Ottawa, Ont.—The senate threw out the old age pension bill by a vote of 46 to 21.

The defeat of the bill came on the third reading, which had been moved by Senator Dandaneau, Government leader. In the vote, Senator Robertson, former minister of labor, was the only Conservative to support the bill. Sir Allan Aylesworth, Senator J. J. Hughes, and Senator T. G. Bennett, all from the government side of the house, voted with the Conservatives against the bill.

Senator W. H. Ross, Opposition leader, said that he believed the government had no constitutional right to invade provincial jurisdiction over such matters as old age pensions. The bill constituted a discrimination against the maritime provinces because they were unable to participate in the financial proposals of the bill. Senator Belmont said it would be unfair to deprive some provinces of the advantage of the scheme because others could not take it up.

Senator Beaudry said Quebec opposed the bill.

Senator J. D. Reid said that only one out of the nine provinces had expressed a willingness to participate in the scheme. It should have been dealt with by a conference of premiers before introduction.

Senator Dandaneau, Government leader, in moving second reading of the bill, urged that it was a measure of relief for poorer working people.

## Popularity Of Lord Willingdon

Canadians Resident in London Are Pleased With Appointment

London.—The appointment of Lord Willingdon as governor-general of Canada, which was announced by Viscount Grey of Ikenhead, the British minister in Ottawa, has been greeted with a great deal of interest in London.

His honor, Col. Harry Cockburn, lieutenant-governor of Ontario, paid a tribute to the remarkable development of the Canadian west in the past quarter century. "Today we find a province on the west with a wealth in 1921 of \$60,000,000, and in 1924 of \$1,500,000,000, who produced in 1921 \$480,000, and whose estimated total wealth today is eight billions. These figures speak for themselves and should give us courage to face the future with a strong heart."

## Higher Production Of Registered Seed

Decision—Shown In 1925 Over Farmer Years

Ottawa.—Canadian production of registered seed of the principal food crops in 1925 shows a marked increase over former years according to figures just released by Peter Stewart, secretary of the Canadian Seed Growers' Association. Wheat, barley and sweet clover made the greatest gains; the increases over the previous year being 100 bushels of wheat, 100 bushels of barley and 7,000 bushels of sweet clover.

There is a growing demand from many lands for samples and quantities of Canadian registered seed, which seems to point to possibilities for a flourishing export trade within the near future.

## Murdered in China

Shanghai, China.—Mrs. W. E. Sibbey, wife of a Canadian Methodist missionary at Jungtshien, Szechuan province, was murdered in the streets of Chungking, in the same province, which resulted in a message from the latter place.

## Motor Van Kills British General

London.—General Edward A. Plunkett, veteran of many wars, was knocked down by a motor van while crossing Piccadilly. He died on the way to the hospital.

## Across Canada in Eighty Hours

When the Canadian Pacific special mail train came to a stop at the C.P.R. depot at Vancouver, at exactly 5:38 p.m. Thursday, May 6, after its journey across Canada from Quebec, it established a record which, according to the officials of the company, will stand for some time. The trip was made from Quebec in three and a half days, the fastest passenger train, and three hours faster than the speedy ski train, the fastest train crossing the continent.

The photo above shows the train on its arrival at Vancouver with the Old Country mails for the Aorangi. The transfer of the mails to the best took only twelve minutes. Indicating the record-fulness of the C.P.R., an executive of the company had agreed to get the mails to Vancouver by 7:40 p.m. on May 6. The train came in a hot head of steam.

## Tariff Advisory Board Manufacturers' Association Expresses Faith That Proper Stand Will Be Taken

Toronto.—Confidence that the new tariff advisory board would deal fairly with the problems which it will be called upon to face, is expressed in a broad Canadian attitude in their discussions, was expressed by various speakers at the annual meeting of the Canadian Manufacturers' Association.

President J. H. Porter, Quebec, said: "I think, gentlemen, that when you take your cases to that committee, you will be well received. I have all faith that as Canadians they will take a proper stand."

Regarding the relation of the many factors to the rest of the country, the speaker said: "What we want to do is to show ourselves in a proper light to other classes in the country. One case in their case; their case is ours. It can be broken over the fact that we are not doing anything to help ourselves to do something worth while for the good of Canada."

Hon. C. E. Lynch, Newmarket, declared that co-operation was evident in Canada today and therefore suggested the formation of a "tariff advisory committee" composed of men of vision to meet representatives of all industries and other classes to discuss matters of interest to all.

In this way an excellent condition of affairs could be brought about.

## \$3,000,000 IS VOTED FOR WORK ON H. B. ROAD

Nearly Nine Hundred Quotas Present to King and Queen at Buckingham Palace

London.—Planned, belated and somewhat in haste, the presentation of nearly nine hundred quotas of the Hudson's Bay Road to the King and Queen at Buckingham Palace.

London.—Planned, belated and somewhat in haste, the presentation of nearly nine hundred quotas of the Hudson's Bay Road to the King and Queen at Buckingham Palace.

London.—Planned, belated and somewhat in haste, the presentation of nearly nine hundred quotas of the Hudson's Bay Road to the King and Queen at Buckingham Palace.

London.—Planned, belated and somewhat in haste, the presentation of nearly nine hundred quotas of the Hudson's Bay Road to the King and Queen at Buckingham Palace.

London.—Planned, belated and somewhat in haste, the presentation of nearly nine hundred quotas of the Hudson's Bay Road to the King and Queen at Buckingham Palace.

London.—Planned, belated and somewhat in haste, the presentation of nearly nine hundred quotas of the Hudson's Bay Road to the King and Queen at Buckingham Palace.

## SENATE ADOPTS AMENDMENTS TO CUSTOMS TARIFF

Ottawa.—The senate adopted the tariff amendments to the customs tariff and the bill was given its third reading.

When these amendments were under discussion, Hon. J. D. Reid, former minister of customs, said from his experience the customs staff on the whole was a good organization. He never could understand how the service administered the customs act with the salaries paid. Men getting less than \$2,000 a year were doing work of the most important character. He did not believe the customs act would ever be properly administered unless his competent men were secured by paying adequate salaries.

Hon. Jacques Robitaille, late minister of customs, endorsed the remark of Mr. Reid. He believed the present customs staff was equal to any in the government service but are underpaid and under-manned.

There was considerable discussion on the amendments seeking to retain automobile parts not manufactured in Canada.

Senator Gordon thought that the duty should be maintained and the parts made in Canada.

Senator Dandaneau said that when they were manufactured in Canada the duty would be replaced.

## May Organize Wheat Pool For Ontario

Will Likely Work in Close Co-operation With the Western Pool

Toronto.—That the United Farmers' Cooperative Company, Limited, undoubtedly will take the initiative in organizing an Ontario wheat pool to work in close co-operation with the Western pool, was indicated by H. A. C. Brown, president of the United Farmers' Cooperative Co., Ltd. in a statement here.

Ontario, H. A. C. Brown, secretary of the central selling agency of the western pools and president of the Ontario Wheat Pool, has been in close touch with executive members of the U.F.C.O. organizations during the past week, and if the cooperative company desires to proceed with the proposition, it is expected Mr. Brown will be called upon to assist in the necessary organization.

Mr. Brown expressed himself as having complete confidence in the feasibility of a wheat pool for Ontario, but the matter will be thrown over to the executive at the next board meeting of the United Farmers' Cooperative Company, Ltd., this month.

## B.C. Sawmill Burned

Big Blaze Took Two Hundred Men Out of Work

Merritt, B.C.—Two hundred men are out of work in this town in Nicola Valley in the interior of British Columbia as the result of a fire which destroyed the sawmill of the Nicola Valley Lumber Company, one of the largest mills in the province, with a resultant loss estimated at \$200,000.

Several of the employees were rescued from the blazing building only with great difficulty and the whole town for a day was threatened by the flames which were carried for hours distances by a heavy wind.

Herde office of the fire fighters resulted in the placing nine fire trucks and millions of feet of lumber in the adjacent yard to the sawmill before the flames despite the fact that the wind was blowing in that direction.

## Want Germany In League

Leaders Anxious to Settle Membership Question

Geneva.—To Get Germany into the League of Nations at the September meeting all costs appeared to be the definite programme of the league leaders.

It is necessary, a special session of the council will be convened during the summer in order to render feasible any repetition of the March decision of the league council.

This means that if Spain and Brazil could alter their present policy, which it turned them as "galling," they probably will be welcomed by the main body of the council, and the council proceeding without them.

## GOOD SUPPORT FOR A NATIONAL FUEL POLICY

Ottawa.—Establishment of coal plants in large centres of population and the adoption by the Dominion of measures which would enable Canadian coal to be marketed in Central Canada were recommended by provincial governments who appeared before the special committee of the house investigating the Dominion's coal supply.

Premier Ferguson, of Ontario, said his province was willing to bear a fair and reasonable share of the cost of encouraging the coal industry in Western Canada and in the Maritime Provinces. The use of Canadian coal in Central Canada is in place of the importation of this commodity, would, he observed, tend to keep money in Canada.

Hon. W. B. Craig, attorney-general of Manitoba, and H. C. D. Richards, New Brunswick minister of mines, supported the recommendations to give central here. In reply to an invitation made from Canadian mines instead of importing it.

Mr. Craig said that the experience of Manitoba with Alberta coal had been highly satisfactory. Manitoba was prepared to do its share in now applying a national fuel policy.

Mr. Craig presented a resolution passed at the present conference here of provincial premiers, which expressed the opinion that the government of Canada should take immediate steps to ensure the establishment of coal plants in large centres of population, and the adoption of such other measures by the Dominion as will enable Canadian coals to be marketed in the central parts of Canada.

## Austrian Immigration To U. S.

Washington.—Quota limitations on immigration from North, Central and South America on the same basis as now applying to Europe, and which would be imposed under a bill introduced by Chairman Borah, of the senate foreign relations committee.

## GRAIN SHIPPING BILL FINALLY PASSES HOUSE

Ottawa.—The Campbell bill to give grain shippers the right to specify the terminal elevators to which their grain should be shipped, passed final stage of the House of Commons after about a week of discussion.

The bill was introduced by Mr. J. G. Ross (Liberal, Moose Jaw) which included Moose Jaw in the list of other ports.

Hon. J. A. Robb announced that after consultation with the board of grain commissioners the government had decided to make Moose Jaw a grain inspection point.

During the discussion, W. W. Kennedy (Conservative, Winnipeg, Centre), said that members of the wheat pool put forward the claim that they, the private elevators, had the right to gather their grain into country warehouses and ship that identical grain direct to their own port terminals.

He admitted that they had the right, but the question arose as to how they could accomplish this purpose.

The members of the wheat pool gathered more grain than they could store in the country. Consequently they had to ship their grain to the storage space controlled by the private elevator companies in order to accommodate the grain they collected.

But if they stored their grain in private country elevators the owners of these elevators would ship the grain to the private elevators.

Hon. Robert Rogers (Conservative, Winnipeg, South), expressed the belief that the private elevators would come back to parliament a few years hence and ask that it be repealed. It would prove, he said, fatal to the interests of Western Canada.

## Suggest Co-operation To Stop Smuggling

Matter Discussed at Conference Between Canadian and U. S.

Ottawa.—Closer co-operation between the Canadian and United States governments in regard to smuggling was one of the subjects of a conference here between Lincoln C. Andrews, United States assistant secretary of the treasury, and the American prohibition and customs department, Harry C. Whitcomb, collector of customs for Vermont, and Hon. G. H. Mevin, minister of customs for Canada.

No announcement of the actual matters discussed was made.

## Would Cut Tax On Wines

Ottawa.—The conference of prohibition and other representatives of the several provinces, passed a resolution asking the Federal government to cut one-third its taxes on wine and spirits made in Canada and sold to provincial government agencies, and also to reduce to one-half the tax on wine and spirits imported by these agencies.

## World's Record For Seeding

Winnipeg.—Seedling operations, on a scale never to constitute a world's record, were carried out on the farm of Mrs. J. J. Joyce, of Springfield, Norm., Alberta, on June 7, when 369 hours, 11 minutes and 20 seconds were used in sowing 110,000 bushels of seed.

## Whittemore To Hang

Baltimore, Md.—Richard Reese Whittemore, who killed Robert M. Holmes in escape from the penitentiary in February, 1923, is to hang. This was the sentence pronounced upon him by Criminal Court Judge J. J. Joyce, of Springfield, Norm., sentenced by Judge O'Duane behind bars.

## Amundsen To Visit Vancouver

Vancouver.—Roald Amundsen, leader of the successful trip across the North Pole to Enderbury, Norway, will be a visitor here before the end of June. Word to this effect has been received by C. J. Doyle, Norwegian consul here, in reply to an invitation made from Canadian mines instead of importing it.

## Canadian Immigration To U. S.

Washington.—Quota limitations on immigration from North, Central and South America on the same basis as now applying to Europe, and which would be imposed under a bill introduced by Chairman Borah, of the senate foreign relations committee.

Austrian Immigration To U. S.

## Arab Women Are Ignored!

Men Returning From Journey Only

Great Male Friends

There is not the Canadian thought of hubby's homecoming for the wife or the unsanitary and Inevitable Arab. The menfolk return from their journey with their wives and families and male friends on the cheek and with never a look at their women, solemnly state that they will not return.

There is scarcely a word of laughter or expression of joy at reunion, and now a smile on the face of the Arab, one moment along the 300 miles of railway.

Strange, Romantic Love Adventures of the Flapper you know

by H. L. GATES

Copyright 1925 by H. L. GATES

Published by arrangement with First National Pictures, Inc.

## THE STORY THIS FAR

Joanna, a pretty flapper shop girl, was paid by an unknown man five hundred dollars to spend as she wishes. Graydon, her employer, bears the message, but more than this he will not tell her. She is not to know her benefactor nor his motives. She can learn nothing more from the banker, Doctor, or her fiancé about town nephew who helps her write her first check and tells her that he intends to make love to her, but she is turned away by a woman, who, because her friends and acquaintances will not believe her, she does some shopping and returning home, happy because of the afternoon of her first love, when she finds her fiancé, nephew to her banker, and John, her old-fashioned sweetheart, waiting for her.

## CHAPTER VII.

## A Shattered Dream

For one brief minute Joanna stood at the foot of the stairs, just outside the drawing room door. The excitement, the exhilaration, the joy, she had met her face as in an aura, had been one of it. She closed her eyes tightly, the gold of their eyes-plucked, making this, straight lines, she stole her hand with her hand against the newest post. All the doubts, the confusions, the joys and the stupendous wonders of the day crashed down upon her. A little while before she had received in her own beauty, and in the glory of John's surprise, his ecstasies, all the questions he would ask her and she couldn't answer. They would say, she would be glad with him over every thought of the future other than could conjure up. There would be no more tempers and jealous, no more fighting at each other. This time, when he put his arms about her, and kissed her, she would be ruthless and with that she'd take her out into the lights, as other boys did, and romp with her through the broadest valleys. That had been what she had looked forward to. Now, as she faced the door, with John just beyond, with her, and with the thought of John, whose very manner toward her was like a caress, also waiting for her, a resolution stirred her. She would be, she knew, that her fate, the fate that had been so strangely brewed for her by unknown hands, was in

there. In the hands of those two men, and she was going in, now, to meet it face to face. Foolish, she thought. She braced her shoulders, and brought an arrogant smile into her chin. Stalling, waitlessly, she waited for the first check, and then, she heard, upstairs, a note something graceful after the fashion of one of the especially bred nannies in the exclusive shop where she had found her gown, but she forgot to use it.

John, and Brandon had been talking, but, that is, Brandon had been talking to John, only lightly. He was very handsome and graceful, in his first evening clothes. He appeared to be as much at home in the humble rooming house parlor as he would have been in a ballroom. Joanna sensed this; John, when she had never seen him before, appeared to be at home. She sensed this too.

Both men gazed at her, silent for a moment, fascinated. The first of the three flared and almost breathed fire, with the deep gold and full-shaded cupid lips, who blushed furiously and wondered what the strange sensation was, was very lovely. It was a full-toned loveliness that still was characteristic of Miss Twenty-seven of the alkies. But Brandon's appraising sense estimated quickly the effect that restrained most love-restrained that came so naturally to the girl—or that wouldn't come, according to the sort of her.

It was Brandon who spoke first. He moved to her and bowed low, with an exaggerated homage. "There is nothing so beautiful," he murmured, "as the had that is burning into a blossom." He lifted her hand and kissed its slender fingers. Joanna could not move, she felt as if she were laughing, at the movies, when men kissed the hands of women. It was a comedy, she thought, but it didn't appear to be silly, with this man, who completely dwarfed her with his, and whose name galvanized. There was a certain quality to have the thrill of a kiss in it. She laughed because it was so unexpected, and so suddenly, and so restrained, and so natural to which "Miss Twenty-seven" had been accustomed.

Her laughing eyes turned to John. She smiled immediately. John was not coming to her; not coming to take her hand squeeze it, and say: "Joanna looks you've got on, too?" of the most elegant line. She took her hand from Brandon, who had held it for that senseless fingers rested on his, and went up to John. When she reached him she realized that he kept his hands in his pockets; that he did not even go through the slight formalities of a courtesy. As if she were the presence of a stranger—an arm thrown around her, a hug and a peck at the lips. He only looked at her, broad in his eyes.

"They have told you, haven't they John?" she breathed, plaintively. "I thought to explain it to you, first, but I didn't want to." "Unconsciously she put her two hands on his breast—the one that always turned John's thoughts, whatever they were, into fondness. It was a good trick, Joanna perfectly knew, but she could never practice it with anyone but John. It invariably had serious effects. But it didn't work this time. John kept his hands in his coat pockets.

"Yes," he said, his tone cold. "Mrs. Adams told me what you told her." The girl started as if she had been struck. The carnal lips quivered. She stared into the brooding eyes that were so evenly. As if she were to fight, pleading for someone else to tell her why John was not happy, and eager, and excited with her, she looked across at Brandon. He was standing where he had left him, smiling, con-

STANDARD OIL CO. (NEW JERSEY)

Don't, watching with a barely restrained amusement. Joanna asked him:

"Have you told him anything?"

Brandon was surprised by this sudden attack. "Mr. Wilmore seemed to know when I came," that is, all, I assure you. He will say that I let him express the hope that whatever was behind your unprecedented good fortune it would bring you a great happiness."

John flashed a glance at Joanna, and then spoke to Brandon, his eyes still cold. "Whatever there is for me to know, will have to come from you. After awhile, perhaps?"

The earnest whisper came back into the girl's chin. She thanked Brandon, in her self-conscious way, for his flattery. He took possession of her, and talked with her as if there were not a third person in the room. Once Joanna, remembering, and then spoke to Brandon, his eyes still cold. "Whatever there is for me to know, will have to come from you. After awhile, perhaps?"

Brandon led her to talk about her clothes—the marvelous things she had bought during the afternoon. He understood how to talk about such things, and she was very glad to be heard. He mentioned her upon her choice of the frock she had chosen to put on that evening.

"Really, you know, that is why I came this evening," he explained, smiling frankly at her. "I wondered what sort of a change you would make in yourself. In the first few hours of your excitement as must have been yours, it must be very wonderful, to a girl, especially a girl who has had so little, to suddenly feel the possession of money—and such unlimited money."

Joanna considered a moment as if there were not a third person in the room. "I can't escape the feeling that everything is done for me," she said. "It is foolish, I know. Perhaps that is because I can't believe things, things." Unconsciously she glanced at John, and made every effort to suppress a smile.

The red came into the girl's cheeks, and she felt as if she were being kissed. "It is foolish, I know. Perhaps that is because I can't believe things, things." Unconsciously she glanced at John, and made every effort to suppress a smile.

## Giant Passenger Plane

Now Under Construction and Will Be Used for Transcontinental Service in U. S.

A giant aeroplanes, multi-motored, and providing sleeping accommodations for thirty-five to forty passengers, is now under construction from the designs of Anthony H. G. Fokker, Dutch aeroplane designer and builder. It was learned on the return of Mr. Fokker to New York recently.

Much activity has surrounded the construction of this latest type of aeroplane, but it is known that the preliminary work on it has been carried on at the Fokker factory in Amsterdam, Holland. The machine is designed primarily for flying in America, and may be used to inaugurate a transcontinental passenger service between New York and San Francisco.

The fuselage of the plane, according to the present design, is built in two sections, the upper section being made over into sleeping berths at night, very similar to the berths now used in sleeping cars of the Pullman Company. The lower section will be equipped with seats as in a railroad parlor car. The plane will be comparable in convenience to any first-class aeroplane. No date has been set for its completion, as several alterations in design have interrupted its building schedule.

## A PERFECT MEDICINE FOR LITTLE ONES

Baby's Own Tablets Should be in Every Home Where There Are Children

The perfect medicine for little ones is found in Baby's Own Tablets. They are gentle, pleasant, and effective, which regulate the bowels, soothe the stomach, drive out constipation and indigestion, break up colds and coughs, and promote healthy sleep. It is responsible for the fact that Baby's Own Tablets are always found in the homes of mothers who are anxious to keep their children healthy and happy. Baby's Own Tablets are sold by every dealer or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Little Helps For This Week

Pray without ceasing.—4. Thess. v, 17.

Things which are wrought by prayer. This is the world's dream.—Where you've ever had dreams you may now proceed to make them come true. Can't you?

Joanna considered a moment as if there were not a third person in the room. "I can't escape the feeling that everything is done for me," she said. "It is foolish, I know. ## Discoverer of the "Ampers"

Name of French Mathematician Given To Electric Unit

In this electrically-driven age one might easily call "ampers," "ampers," "ampers." How many people know how these terms originate? It is the centre of the square in the ancient Pythagoras district section of Lyons, France, is the monument to Marie Andre Ampere, the great physicist and mathematician, whose name has been given to the electric unit in acknowledgment of his many notable discoveries.

Walking along the New Victor Hugo one comes upon it quite unexpectedly. The figure of the famous scientist rests in a huge chair.

Ampere's mathematical genius was evidenced when he was a mere infant. It is said that with pencil and broad eraser he worked out complicated and elaborate arithmetical problems before he even knew the figures by sight. He is reputed to have said that he knew as much about mathematics at 18 as he did in the later years of his life.

Quite a startling statement when one recalls him as one of the chief authors on mathematics in the nineteenth century.

Ampere's most important contributions to science were the establishment of the relations between electricity and magnetism and the development of the science of electromagnetism, which followed. He wrote many interesting works on other subjects among which was his treatise on cambling. In this he applied the theories of mathematics to prove that the odds were against the man who engaged in gambling habitually.

## Celtic Calendar Deciphered

Months Spent in Reproducing Fragments Found Years Ago

The Celtic calendar composed of one bronze fragment discovered some years ago at Coligny in the Ain Department of France has at last been deciphered by French scientists. The fragment, which was found in 1897, was a full plate made by a metal worker, which permitted the interpretation of the signs. It is reported that the Celtic year was composed of 365 days, with the months alternating thirty and twenty-nine days. Every two and a half years an extra month was inserted to catch up with the solar year.

Miller's Worm Powders are considered the best for the treatment of worm disease from the system, but are not so potent as the worm powder. It is a powerful purgative, but it is not so potent as the worm powder. It is a powerful purgative, but it is not so potent as the worm powder.

## Lesson Is Obvious

Canadians Should Use Money To Develop Rich Resources

Our universities seem to be engaged in a struggle to develop rich resources for the benefit of the United States, and the men from that country are also working to bring the source of their own advantage. The lesson seems obvious. It is that Canadian should not be content with their own money, but venture some of it not only in mining, but in industries of various descriptions. It is no use, and it is not fair, to complain of graduates and others leaving Canada when good opportunities do not offer themselves here. Canadians have the money and they have the finest resources in the world; to build up a prosperous country they should use the first in developing the second.—Kingston Standard.

## Epidemics Take Huge Toll

Epidemics, with a toll of 400,000, have claimed more lives throughout the world since 1914 than all the wars and civil strife since that time.

Dr. J. D. Kellogg's Aerita Remedy has proved its merit through a series of experiments. A trial will soon convince you.

## Popular Auto Accidents

Clifford Babcock, 20 years of age, of Middletown, N.Y., has sustained a serious injury in a recent automobile accident.

He was thrown from his car and struck against a tree, fracturing his left Adam's apple. It is feared he will never be able to speak again, although he will live.

## Use Minard's Liniment in the Stables

The ministers of agriculture for the six states of the Australian Commonwealth are meeting in June to discuss Australian participation in the World's Poultry Congress. Australia has taken a prominent place in poultry activity, and her laying tests are world renowned.

## Two of a Kind

Mr. McIl will be let some bills go to the grocery store. Mr. McIl will be let some bills go to the grocery store.

Would Take Aerial Survey Of Canada

Air Surveys Company, of London, Atking Permission

Col. G. R. Ryher, C.B., C.S., D.S.O., recently arrived in this country on his way to Ottawa and elsewhere, to the capitals of the various provinces to interview the heads of the Federal and Provincial Governments relative to the possibility of allowing his firm, the Air Surveys Company, London, to make a complete aerial survey of the whole of Canada.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will relieve the swelling that follows a sprain, will cool the inflamed flesh and draw the pain. It will take the ache out of a bruise by counteracting the inflammation. It will soothe any who doubt its power.

A Woman Railroad President

Mrs. Sarah Bryan Dinsmore, of New Orleans, who is the seventh, is the president of the Louisiana, Railway and Navigation Company. Founder of the steel wire industry and a partner of John W. Gates. He died recently a multi-millionaire.

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. J. M. Parks, Grosse Pointe, Mich., writes: "I had heart and nerve trouble, and became so short of breath I could hardly do my housework, and was so nervous I could not think of staying alone, so I wrote to a friend I heard felt like I should write to."

I Saw

recommended, as I tried to her, and after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 25 years and has achieved a wonderful reputation for the relief of all heart and nerve trouble.

Put up only by The T. Millard Co., Limited, Toronto, Ont.

Aeroplane Had Busy Year

More than 2,600 passengers were carried in the past year by the five privately operated aeroplane lines in Australia.

Keeps Food Fresh and Full Flavored

After each meal cover your bread, cake, meat and other left-overs with Para-Sani. This heavy waxed paper protects your food from drying out and saves much that would otherwise be thrown out.

Para-Sani is sold in a most convenient package. From the large cardboard box you get the exact amount of paper you want. No paper wasted—no time lost.

Ask your dealer for Para-Sani, or write direct to

## Vote For Progress

The need of Alberta is for a government elected solely in the interests of the people of Alberta, not to gratify party ambitions, nor to supply jobs for party workers. A system that sets farmers against each other on opposite sides of the Legislature is not in the economic interest of the people of the province. Every other industry and profession in Alberta is rightly organized for its own social and economic welfare, and puts forward all the political pressure it possibly can.

Remember what happened in Alberta under the party system, the printing scandal, the railway muddle, the Athabasca and Peace River elections, the patronage distribution of the taxpayers' money for jobs and public works, etc.

Here are a few comparisons between the party system and the U. F. A. system of business government:

Land Titles Office Cost, 1921, \$241,000, 1925, \$150,753; Election Costs, 1921, \$248,000, 1923, (Plebiscite) \$133,000, 1926 Election Estimate, \$130,000; Reductions in controllable expenditure, 1921 to 1924 inclusive, Alberta, 14 per cent., Saskatchewan, 12 per cent., Manitoba, 8 1/2 per cent., all other provinces increases. Cost of educating 320 agricultural students, 1921, \$191,000, 1925, \$103,000 for 390 students.

**A Vote for a U. F. A. Candidate is a Vote for Efficient and Impartial Administration.**

Issued by the U. F. A. Publicity Committee, Calgary.

## Hail Insurance

Will guarantee you the best of service in Hail Insurance.

Have several companies which would be acceptable for you to place your hail business.

## Local and General

High River defeated Staveley on Wednesday by one run at High River.

The Aid meets Thursday, June 24th, at the home of Mrs. J. D. McDougall.

Henry Smith, who has been ill for some time is said to be improving slowly.

Born—At Calgary on Saturday, June 12th, to Mr. and Mrs. W. C. Hoskins, a daughter.

Miss Alvie Bowman arrived from Indiana last week to spend the summer at the home of her father, Mr. W. H. Bowman.

Mrs. Falkus and children, of McLeod, visited at the home of Mrs. Milliken during the week and at present are visiting Mrs. Bond.

Enumerator's lists will be posted in the postoffice and also in H. Cooper's office, where those interested will be able to look them over.

Don't forget Champion's baseball tournament on July 1st. Four teams are expected to take part and there will be plenty of baseball for everybody.

What almost amounted to a cloud burst passed east of Champion on Wednesday, drenching everything thoroughly on a strip about six miles wide. It was accompanied by hail, which fortunately done no damage.

## CHURCH BULLETIN

Rev. J. Lee announces the following services for Sunday next, June 20.  
11 a.m.—Sunday School.  
3 p.m.—Service at Blasen School.  
7:30 p.m.—Public Worship.  
Mr. Lee will conduct all services. Everybody welcome.

# Twelve Reasons For Electing Liberals

1. The Liberal Party stands for a more business-like administration of Alberta affairs. The present government is without business ministers, without business experience and has been without business success. It is a Class Government which is divorced from business entirely.

2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by \$22,000,000, with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.

3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.

4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.

5. It stands for better development of agriculture. Capt. Shaw objects to bringing the pools into politics, but his record as a member in Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all the burdens which have been preventing development.

6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational funds.

7. It stands for better health organization and encouragement for hospitals. There has been no development in the health department since 1921.

8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.

9. It stands for honest distribution of the province into ridings.

10. It stands for justice to the returned man in the province.

11. The record of the Liberal party has been one of development and progress. It has to its credit:

1. The settlement of the province.
2. The organization into municipalities.
3. The destruction of railway, lumber and telephone monopolies which threatened its destruction in early days.
4. Farmer legislation such as co-operative elevator act, the farm machinery act, direct legislation.
5. The beginning of labor legislation, which has remained unimproved. This includes the Factory act, the Workmen's Compensation act, and other similar legislation.
6. The development of the vast Peace River area.
7. The organization of schools, the creation of the Provincial University, the Institute of Technology and Art and the Farm Schools.
8. Franchise for women and all legislation safeguarding the rights of women.
9. Hospital legislation and all progressive health legislation.
10. Soldier relief legislation.

12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives, not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

Miss Rachel Smith and Miss Ella Stephenson were in Lethbridge on Saturday taking music exams.

Mr. and Mrs. Mason and family left for Drumheller on Saturday, the trip being made by motor car.

Several from Champion attended the football game at Calgary on Saturday, when the visiting English met Calgary. The score was 7-4 in favor of the visitors, whose play was of the highest excellence in every respect.

The Rev. Fred Cook who has been in Champion, taking up subscriptions to the Sailor Magazine and donations to the Navy League, wishes to thank the citizens for their assistance and co-operation, as they have contributed about \$39.00 to the work. The Navy League of Canada is assisting the widows and orphans of our men of the merchant service, maintaining Sailor's Homes and training boys and young men for better citizenship. The Alberta Division is required to raise \$8,000.00 as its quota to the \$250,000.00 budget and of that amount the province of Alberta has already subscribed \$8,000.00 and the Navy League hopes to raise the balance as soon as possible.

## Dressmaking

First-class Dressmaking or Plain Sewing. Will go out by the day or take at the house. Phone 42.  
MRS. R. J. COWELL

**Remember  
the Baseball  
Tournament  
July 1st**

The Sailor Magazine is published monthly, at \$2.00 a year, and ought to be in every western home. Contributions can also be sent: Jno. A. Irvine Esq., Hon. Secretary Treasurer, 817 1st Street East, Calgary, Alberta.

## Red Cross Society Annual Report

The Annual Report of the Alberta Division Canadian Red Cross Society is now off the press, and is obtainable free by mail.

This report covers the work of the various departments of Red Cross work in Alberta: viz Junior Red Cross and Crippled Children's Hospital, Rural Hospital and Nursing Service, Health Education and Information Bureau also the Financial statements of the Division.

The officers for the ensuing year are representative of the chief citizens of this province with His Honor Lieutenant Governor Egbert as President. The Provincial Council includes many of the directors of the men's and women's service clubs of Alberta. The peace policy pledges the Red Cross to improvement of health, the prevention of disease, and the mitigation of suffering throughout the world. How that pledge has been kept in Alberta is summarized in the Annual report of the operations of the Society for 1925.

The small outposts run by the Red Cross show records of lives saved, butts attended, and much sickness and suffering relieved. The need is for still more outposts, stations, staffed by Red Cross nurses and ready to assist the settlers in the sparsely populated districts. A new phrase of Red Cross is the establishment of Home Nursing Classes for the instruction of women in the art of nursing the sick in their own homes. The Alberta Division has not only an English speaking nurse in the field actively engaged in this important work, but has recently added to the staff a Ukrainian nurse for the foreign field, where great need is manifest

amongst the immigrants from southern Europe.

Junior Red Cross in schools has made rapid progress and reports show 15,000 school children enrolled for Health and Happiness. Health Education records show an advance and an increased demand for health literature, lectures etc., a service which is available free to any community. All Red Cross friends are invited to write in for a copy of the Annual Report to, Alberta Division Canadian Red Cross Society, Traders Building, Calgary.
